

COMPANY PROFILE

ABOUT US

TechGuru Garage LLC is a specialized mining supply, technology, and engineering solutions company dedicated to supporting all departments of modern mine operations.

Evolving from an ICT solutions provider, TechGuru Garage now delivers comprehensive mining support supplying equipment, systems, and services that enhance efficiency, safety, and reliability across exploration, operations, processing, and infrastructure.

Our expertise spans ICT, automation, electrical and civil works, process plant systems, heavy machinery spares, environmental and safety systems, and training solutions all tailored for the mining environment.

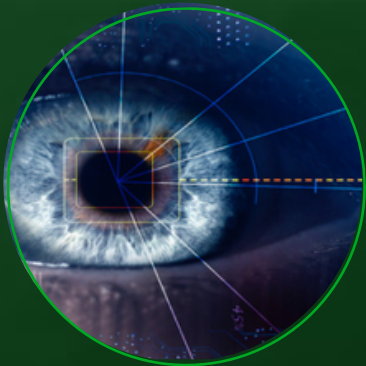

By combining innovation, technical depth, and reliability, we deliver sustainable, high quality solutions that improve productivity and operational performance across the mining value chain.

TechGuru Garage is redefining what it means to be a One Stop Mining Solutions Partner driven by excellence, efficiency, and integrity.

MISSION

To be the leading provider of integrated technology, engineering, and industrial solutions delivering innovative, reliable, and sustainable services that empower mining and industrial operations worldwide.

VISION

To be the most trusted and innovative one stop solutions partner for mining and industrial sectors, recognized globally for excellence, efficiency, and sustainable impact.

WHY US

TechGuru Garage is a one stop partner for mining and industrial solutions, providing end to end services and supplies across operations, processing, heavy machinery, electrical infrastructure, safety, environment, and training. Leveraging expertise in ICT, engineering, automation, and mining operations, we deliver innovative, reliable, and cost effective solutions that enhance efficiency, safety, and productivity, all while adhering to global quality standards.

OUR SERVICES

Below is the list all the items we supply depending on each Mining department

1. Geology Department

TechGuru Garage supplies everything required for geological operations, just to mention a few.

Drilling consumables

Geological tools

Mapping equipment Mapping and field tablets

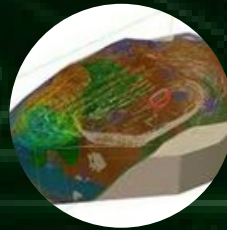

Surveying tools (GPS units, compasses, drones)

2. Mine Engineering / Planning

TechGuru Garage supplies everything required for mine planning and engineering operations, just to mention a few:

Mine design software i.e Deswik,
Datamine Studio EM, GEOVIA
Surpac, Hexagon MinePlan, and
Maptek Vulcan

Engineering consumables (survey
pegs, paint, tapes)

Plotters and printing tools

3. Operations / Production

TechGuru Garage supplies everything required for mining operations, just to mention a few

Drilling machines, bits, and hammers

Explosives accessories (detonators, blast mats)

Mining tools (excavators, dozers, haul trucks)

4. Processing / Metallurgy (Process Plant)

TechGuru Garage supplies everything required for process plant operations, just to mention a few.

Process chemicals Reagent, Sodium cynaide, Caustic Soda, Flocullant, Lead Nitrate, Hydrochloric acid, Hydrogen peroxide, Activated carbon, Grinding balls

pumps, valves, pipes, and fittings, plant machinery spares (motors, bearings, conveyor belts)

Cutting disc, Motor Weg, Plate, Square, RME spare tools, cyclone spare tools, intake screens

control instruments and sensors (pressure, flow, temperature), filter cloths, slurry hoses, reagent mixing tanks, and sampling devices.

4. Processing / Metallurgy (Process Plant)

Were also dealing with relining for SAG Mills and Ball Mills for Good time and safety Operation , Russel Mineral Equipments like Magnam Thunderbolt machine and Rato portable Gan for mill liner bolts

5. Technical Services

TechGuru Garage supplies everything required for technical services, to mention a few:

computing systems, geological modeling software, and environmental monitoring devices.

Data logging instruments, monitoring sensors

rock mechanics tools
(extensometers, stress meters)

survey drones, GIS software,
analytical tools.

6. Material Handling

TechGuru Garage supplies everything required for material handling operations, to mention a few:

Conveyor belts, idlers, rollers, pulleys, forklifts.

Cranes, lifting accessories, lubricants, greases, hydraulic oils, weighbridges.

truck scales, bulk bags, pallets, and load handling attachments.

7. SAFETY, ENVIRONMENTAL & RISK MANAGEMENT

A. Health & Safety

TechGuru Garage supplies everything required for health and safety operations, to mention a few:

Process Plant PPE (helmets, gloves, boots, respirators, ear protection), noise meters, eye protection and many others.

safety signage, hazard labels, first aid kits, Emergency escape or first aid signs, gas detectors, Prohibition signs.

eye wash stations, reflective vests, and spill kits.

7. SAFETY, ENVIRONMENTAL & RISK MANAGEMENT

B. Environment

TechGuru Garage supplies everything required for environmental management operations, to mention a few:

Environmental monitoring kits (for water, soil, and air)

waste segregation bins, liners, spill kits, absorbents

reclamation tools (seedlings, fertilizers, soil stabilizers)

water testing equipment, weather stations, and effluent sampling systems.

7. SAFETY, ENVIRONMENTAL & RISK MANAGEMENT

C. Risk Management

TechGuru Garage supplies everything required for risk management operations, to mention a few:

Fire detection and suppression systems, risk assessment software, hoses, hydrants, fire trucks, safety suits

ropes, first aid kits, and communication radios.

fire alarms, smoke detectors, emergency lights, and rescue equipment.

breathing apparatus, helmets, rescue stretchers

8. SUPPORT & ADMINISTRATIVE DEPARTMENTS

A. Human Resources (HR)

TechGuru Garage supplies everything required for HR operations, to mention a few

Office furniture, IT accessories, attendance systems

access control systems, training aids (projectors, whiteboards),

HR software, filing cabinets, printers, and staff ID systems.

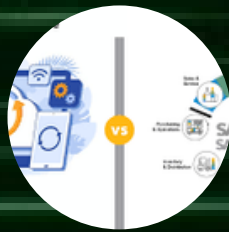

water testing equipment, weather stations, and effluent sampling systems.

8. SUPPORT & ADMINISTRATIVE DEPARTMENTS

B. Finance & Accounting

TechGuru Garage supplies everything required for finance and accounting operations, to mention a few

Office computers, printers, accounting software (SAP)

filing systems, safes, stationery, calculators

document shredders, and financial reporting systems

8. SUPPORT & ADMINISTRATIVE DEPARTMENTS

C. Procurement & Supply Chain

TechGuru Garage supplies everything required for procurement and supply chain operations, to mention a few:

inventory software, barcoding systems, packaging materials

labeling tools, trolleys, weighing scales, and stock management systems.

Warehouse shelves, pallets, forklifts.

8. SUPPORT & ADMINISTRATIVE DEPARTMENTS

D. Information Technology (IT) / ICT

TechGuru Garage supplies everything required for IT and ICT operations, to mention a few:

Servers, routers, switches, cabling.

access points, computers, tablets, monitors, UPS systems, Mobile phones

data storage devices, and software licenses.

8. SUPPORT & ADMINISTRATIVE DEPARTMENTS

E. Telecommunication works

Supplier of Fiber optics communications tools and accessories.

Cell Site power servicing.

Telecommunication equipment installations.

Fiber optics infrastructure construction and maintenance (fiber internet connection i.e. fiber to building, fiber to home etc.).

8. SUPPORT & ADMINISTRATIVE DEPARTMENTS

F. Community Relations & CSR

TechGuru Garage supplies everything required for community and CSR programs, to mention a few:

Borehole and solar system kits, construction tools

agricultural tools, branded uniforms, school and health project materials

water pumps, and lighting systems for rural support.

8. SUPPORT & ADMINISTRATIVE DEPARTMENTS

G. Security

TechGuru Garage supplies everything required for security operations, to mention a few:

CCTV cameras, alarms, access control systems i.e. biometric access systems etc.

radios, metal detectors, communication devices

barriers, bollards, and vehicle tracking systems.

8. KEY SUPPORT DEPARTMENTS

H.Clinic / Medical Department

TechGuru Garage supplies everything required for medical services,
to mention a few:

Hospital beds, monitors, defibrillators,
medicines, first aid supplies

ambulance equipment, PPE,
gloves, syringes, wheelchairs.

oxygen tanks, and
sanitation materials

8. OTHER KEY SUPPORT DEPARTMENTS

I. Training Department

TechGuru Garage supplies everything required for training and capacity-building operations, to mention a few

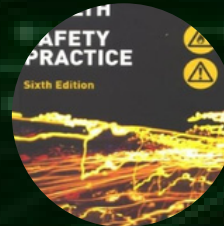

Training simulators, software,
projectors

screens, sound systems,
stationery, manuals,

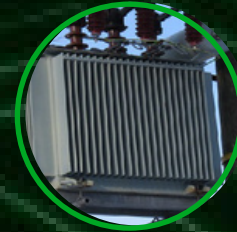

safety handbooks, and
technical training kits.

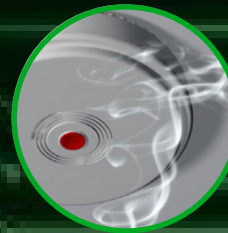

9. SUPPLYING AND INSTALATION OF ELECTICAL MACHINES & ELECTRONICS SUCH AS:

TechGuru Garage supplies everything required for installing electrical machines and electronics, to mention a few

Electrical Motors (DC and AC), Backup systems, Generators, Transformers supply, installation and maintenance.

PA (Public addressing) Systems, Heavy duty FM Radios, VHF Radios (Two way radios)

Power services for solar energy, systems (Hybrid systems), Sine wave inverters, connectors, conduits and cables

Battery Chargers, Change over switches (manual and automatic), Solar charger control, Rectifier systems, Backup batteries, Fire alarms/detection systems

10. SUPPLYING AND INSTALLATION OF AUTOMOTIVE ACCESSORIES SUCH AS:

TechGuru Garage supplies everything required for Automotive operations, to mention a few

Relays, Solenoids, switches, V-belts , Alternators, Fuses, Starter motors.

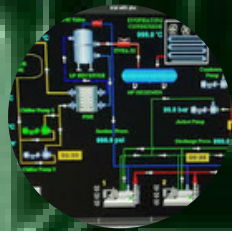

GPS trackers Vehicle monitoring units (OBD devices)
Dual battery systems

Reflective tapes and vests
Heavy-duty bull bars and winches,
Recovery, gear kits, Air suspension
systems

11. SUPPLYING AND INSTALLATION OF DIFFERENT MINING SYSTEMS SUCH AS:

TechGuru Garage supplies everything required for mining systems, but also we also design and develop customized systems to mention a few

process Plant Automation System i.e
SCADA

Fleet & Asset Management System

Fuel automation systems

Our dealerships

Below is the list of some of leading brands that TechGuru Garage maintains dealership and partnership with among many others, ensuring access to world-class products and reliable technical support.

MAMI

Power Kingdom

Hawk-FSK and Axis

Dell

Sophos

Portwest
